ILM Level 7 Award in Leadership and Management

Your experience is part of what makes you a leader, but how can you prove that you have what it takes on paper?

Most leaders are too busy leading to gain a qualification, but you don't have to choose one over the other. Use your real work experience to gain an internationally recognised qualification in leadership and management.

About this module

This module takes your learning from the programme and applies it to your working world. You will develop a work-based project, focusing on a real-life challenge or opportunity from your organisation. By applying your learning from different leadership modules through reflective practice, you will critically assess the effectiveness of your leadership.

Through a series of online webinars, our academic experts will support and guide you to create a 2,500 project assessment for a Level 7 Award from ILM (a City and Guilds Business).

Who is it for?

This module is essential for experienced leaders and managers who want to add a formal qualification to their portfolio, proving their expertise with evidence, for long term career development.

How will you benefit?

By the end of the session you will be able to:

- > Practise and apply your new learning and skills
- > Use your experience to gain a valuable Level 7 qualification
- > Translate your learning into real results
- > Demonstrate a return on investment to your organisation
- > Launch further study at Level 7 including a certificate or diploma in Leadership and Management.
