## ILM Level 7 Award in Leadership and Management

**Your experience is part of what makes you a leader, but how can you prove that you have what it takes on paper?**

Most leaders are too busy leading to gain a qualification, but you don't have to choose one over the other. Use your real work experience to gain an internationally recognised qualification in leadership and management.

### About this module

This module takes your learning from the programme and applies it to your working world. You will develop a work-based project, focusing on a real-life challenge or opportunity from your organisation. By applying your learning from different leadership modules through reflective practice, you will critically assess the effectiveness of your leadership.

Through a series of online webinars, our academic experts will support and guide you to create a 2,500 project assessment for a Level 7 Award from the Institute of Leadership and Management (ILM).

### Who is it for?

This module is essential for experienced leaders and managers who want to add a formal qualification to their portfolio, proving their expertise with evidence, for long term career development.

### How will you benefit?

By the end of the session you will be able to:

- > Practise and apply your new learning and skills
- > Use your experience to gain a valuable Level 7 qualification
- > Translate your learning into real results
- > Demonstrate a return on investment to your organisation
- > Launch further study at Level 7 including a certificate or diploma in Leadership and Management.

### Programme Director

Dr Mike Kennard, Programme Director for the Manchester Leadership Development Programme, guides and oversees delegates throughout their ILM Level 7 project work.

*"The Level 7 Award in Leadership and Management is an opportunity for senior managers and leaders to transform their real-world leadership experiences into a recognised qualification."*
