

# MANCHESTER LEADERSHIP DEVELOPMENT PROGRAMME

Leadership in Practice | Leading Teams and Talent | Financial Management | Strategy and Innovation | **Project Management**

## What is MLDP?

The Manchester Leadership Development Programme is a short, flexible, ILM accredited, open leadership development course. It inspires and guides you to think creatively, organise differently and develop a mind-set which is critical for leadership.

The programme will be delivered:

- > Via a blended learning approach; in person over five consecutive days and through an online learning platform
- > Separately as individual modules for organisations looking to upskill a team in a specific area
- > Face-to-face

All information is correct at time of print, and is subject to change.

## Project Management

### Getting Things Done

Great leaders make things happen, but getting the job done isn't always that easy. From people to politics, resources to risk management, how can leaders best navigate that mix of obstacles and opportunities to deliver the project?

#### About this module

This one-day module takes real world examples of projects and applies the common sense, tools and theories you need to achieve results. Through the session you progress step-by-step through each stage of a project, learning valuable best practices and avoiding common pitfalls.

#### Who is it for?

If you are involved with delivering a major project, reorganisation, launch, new system, infrastructure or capital project, then this practical tools- based session is essential.

#### How will you benefit?

By the end of the session you will:

- > Define, design and implement projects with greater confidence
- > Understand project team dynamics and leverage teams for impact
- > Better communicate for clearer project aims and more effective outcomes
- > Appreciate your role as a leader of effective project management.

#### Masterclass Expert

Dr Alec Waterworth is a lecturer in Project Management. He teaches on major client project management programmes and has a background in Quality Engineering in the oil and gas industry.

*"Project management is about reducing risk, reducing uncertainty, reducing complexity and trying to ultimately enhance your chances of success."*
