

Developing a recovery framework

Our project team takes a systems approach to support resilience partners as they design strategies for recovery and renewal from COVID-19 that will build resilience.

1 new ISO 22393 for recovery from COVID-19

1,800+ hours of meetings with government response, recovery and renewal groups

75+ webinars and workshops organised

Expert insights from governments, the UN, WHO, WEF, The World Bank and more

17 academics from a wide range of disciplines

120+ interviews with a global community of experts

RECOVERY RENEWAL RESILIENCE

The Manchester Briefing

Our project team produces 'The Manchester Briefing on COVID-19', a fortnightly document that brings together international lessons inspiring thinking on recovery and renewal from COVID-19.

Database of lessons on recovery and renewal

500+ international lessons on recovery and renewal from...

100+ countries worldwide

42 issues each including 4 briefings

44 case studies

43 impactful 'think pieces'
